EXPERIENCE

Logistics Analytics Intern

Nhat Tin Logistics

Ho Chi Minh, Vietnam

June 2026 - Now

- Achieved more reliable operational reporting across 15,000+ shipment records using PivotTables, PowerQuery, and advanced Excel functions by standardizing logistics data, building executive dashboards, and diagnosing root causes of delivery delays that supported management decision-making.
- Presented KPI analyses during management reviews, translating operational trends into actionable process improvement recommendations across multiple delivery methods.

First-Year Student Peer Mentor

UIC College of Business

Chicago, IL

August 2026 - Now

- Support 100+ first-year business students through academic mentorship and hands-on Excel instruction, strengthening analytical and problem-solving skills.
- Assist BA 101 instructor by guiding students through Excel applications, coursework, and academic resources to strengthen classroom engagement and student success.

Accounting Assistant Intern

Le Huy Printing Company

Ho Chi Minh, Vietnam

May 2025 - August 2025

- Achieved 100% audit compliance by processing and reconciling 100+ financial transactions using Excel and Bkav .
- Improved financial reporting accuracy through weekly reconciliation of company debt records by analyzing outstanding balances, validating transactions, and generating reports that supported cash flow monitoring and interest calculations.

LEADERSHIP

Alpha Kappa Psi

Active member/Marketing Committee

Chicago, IL

December 2025 - Now

- Strengthened analytics capabilities for 30+ students by designing and delivering an interactive Excel workshop covering PivotTables, Power Query, and dashboard development through hands-on business case exercises.
- Conducted outreach to 20+ professionals and delivered 10+ networking presentations, strengthening stakeholder engagement and professional communication.

PROJECTS

IDS in FOCUS 2026 Case Competition

April 2026

- Evaluated operational inefficiencies and fragmented customer data for UrbanPlate, recommending ERP, CRM, and Business Intelligence solutions to improve operational efficiency and support scalable growth.
- Presented strategic recommendations to faculty and industry judges, earning 3rd Place for delivering a data-driven digital transformation strategy aligned with business growth objectives.

Wine Quality Prediction using Logistic Regression (Excel)

February 2026

- Achieved 85.4% validation accuracy by developing a logistic regression model that identified key quality drivers and informed recommendations to reduce low-quality wine production.
